## Season Of Measles

### Report All Communicable Diseases To Health Dept.

The season of measles is now upon us. During the past few weeks over 100 cases of measles have been reported to the Health Department. We would like to urge all parents to watch their children closely during the next few weeks. At the first sign of the symptoms of measles, high fever or rash, contact your family doctor for treatment.

All cases of communicable diseases are required, by law, to be reported to the Health Department.

There has been a few cases of influenza reported. The incidence is low at this time. However, do not be lulled into carelessness. It is urged that at the first signs of influenza, prolonged colds, dizziness, headache, fever, general soreness and weakness, your family doctor be contacted. If influenza is not treated promptly and correctly, many secondary conditions result.

BLUE LAWS—Almost any community that wants a local hearing

## Swimming Pool For 'Y' Planned

Arthur Daigneau, chairman of the Site Development Committee for the newly acquired Agawam Community YMCA property, announces that construction of an outdoor swimming pool will be the major project for 1962. This action is in keeping with the plans of the YMCA board of directors desire to ready the site for the complete day camp program next summer.

Pool contractors are being invited to go over the pool location with YMCA Director Zaven Vorperian and will present their proposals at the next meeting of the Site Committee.

The swimming pool will be built large enough to furnish an adequate recreational facility for the community as well as day camp needs. William McLellan, president of the Community YMCA, has said that the United Fund, recognizing the lack of swimming facilities in the rapidly growing town of Agawam, has given permission for the local group to conduct a fund-raising campaign in order to underwrite the proposed project.

At the meeting of the site development committee, James Clark, chairman of the executive committee for the site near the corner of Mill Street and Perry Lane, reviewed work accomplished to date, which included renovation of the building now being used for the YMCA office and the acceptance by the committee of a master plan for the property.

Ted Progulski, with the aid of Robert Hall, Al Nichols and Harry Leonardi, have drawn up a graphic presentation indicating the immediate and future plans for developing the property.

and Carole Hamar.

These girls will be given opportunities for office visitations in the Springfield area and a fine supper program in the evening at the Massachusetts Mutual Life Insurance Company cafeteria.

Miss Frances Cofrancesco of the high school faculty will accompany the girls. At that time certificates will be presented to winners of the NOMA arithmetic and spelling proficiency awards.

on the Blue Laws issue can have it. Rep. George O'Farrell (D) of Malden, House Chairman of the Committee hearing the issue has set Worcester and Springfield as hearing dates for January 19th. The committee will be in Pittsfield on the 20th and at Greenfield at 3:30 that afternoon and in Gardner that night. Later on the 26th the group will be in Plymouth and Yarmouth. But if anyone wants a hearing, the committee will set one up for local discussion.

EQUAL PAY — The Education committee has approved a bill which would have cities and towns pay the same salary to female school teachers as is paid to men. It also ok'd the bill filed by Sen. Elizabeth A. Stanton (D) of Fitchburg which would facilitate the school lunch program by coordinating nutrition programs.

KILLAM—Governor John A. Volpe's new appointment secretary, James W. Killam of Reading will be paid an annual salary of \$7500 a year as a result of the wage payment approved by the Governor's Council.

## ... about your SOCIAL SECURITY ...

Disabled people receiving social security benefits can now receive payments up to twelve months after they return to work, according to Daniel J. Murphy, Jr., Manager of the Springfield, Mass. Security Office.

"The law works this way. If a person returns to work, even though his condition has not improved, he must report his work to the Social Security Administration. His checks will not be stopped. After he has worked nine months the Social Security Administration will review the situation to see whether the beneficiary has regained his ability to work. If he is found able to engage in substantial work, and therefore is no longer disabled within the meaning of the law, he will still be paid his benefits for three more months, or a total of twelve months in all. Then the social security checks will be stopped. This means a disability beneficiary can receive benefits up to twelve months after he returns to work."

Mr. Murphy stated, "The twelve month trial work period gives financial support to the disabled beneficiary when he returns to work. He knows he can count on his social security benefits while he finds out if he can work."

For more information, contact your social security office. The address is 1200 Main Street, the telephone number is RE 7-4761.

## THE BROWN HOMESTEAD

By EDITH LaFRANCIS

The house at 302 Mill Street, owned by Fayette Brown, will be the next to go down in the path of progress. The land is needed for the new highway. The house and barn, the tall spreading oak trees that have shaded the yard, the evergreens that have ridden the front of the house, all must be demolished.

The house is not one of the oldest in town but because of its setting has always had an air of individuality. Only two families have lived there.

About 1879 George Osborne purchased land from George Fowler for a home. The building of a house in those days was more than a matter of a few weeks, and before it was finished Mr. Osborne brought his family over from the Merrick section of West Springfield. His youngest daughter, Mrs. Bertha Osborne Gug was born there. The children attended school in the white one room building on Suffield Street and the West Springfield High School. In 1915 Mrs. Gug moved to a home on Suffield Street which at one time was owned by Fred Arnold. Mr. Arnold for many years drove a daily stage route between Agawam, Feeding Hills and Springfield.

Mr. Brown purchased the Mill Street property from the Osbornes and lived there for over forty years.

When he first came to this area as a young man, he worked at Cook's livery stable in West Springfield and often drove the horse and buggy taxi service for Agawam and Feeding Hills people to and from the Railroad Station. When the trolley line was put in he was motorman on the second car ever to run over the tracks to Feeding Hills. He farmed the land on Mill Street and found it especially good for raising large crops of strawberries.

Mr. Brown is now 87 years old and still in good health. He and Mrs. Brown have moved to the Fraser place on Suffield Street.

## Your Library....

The Board of Library Trustees, in order to answer inquiries regarding the duties of a Head Librarian, offer the following:

A Head Librarian is a professionally trained person who has, in most cases, a minimum of five to six years specialized college training and a Master's Degree in Library Science.

This person is the administrator of the libraries, and is responsible for all phases of operation under the policies set forth by the Board of Library Trustees. The Head Librarian is also responsible for all financial and statistical records of the libraries.

In addition to the administrative responsibilities, the Head Librarian, in all towns, uses approximately one half of the week's work hours at the desk of a library, performing the usual tasks of charging books, registering patrons, answering questions and assisting in the most important task of reference work, acting as reader's advisor, preparing books and magazines for circulation, checking and straightening out reference shelves, etc.

This person, because of the varied training received, also becomes, in a town of our size, the cataloguer, the children's specialist and youth's advisor as well as an expert in the field of adult fiction, and all types of non-fiction.

Being thoroughly educated in all of these special library techniques, this person is capable of training personnel in the modern methods of cataloguing, book selection, and student reference work.

Although the school system in Agawam is known as one of the best in the nation, the libraries, which are actually a supporting arm of the schools, have by no means kept pace. After long and thorough study, we, your board of Library Trustees, find that the best method of helping our present librarians is by establishing the position of Head Librarian. The Head Librarian would certainly contribute much to the betterment of the three libraries in Agawam.

According to National and State Library standards, a Head Librarian is a necessary factor in coordinating library facilities in any town of over 7000 people.

little empires in the administrative branch, from which they can then exact patronage and pelf.

Massachusetts adjoins New York state. Do we ever stop to

wonder why New York has had governors like the two Roosevelts, Hughes and Stimson, Al Smith and Herbert Lehman, Harriman and Rockefeller, while strong Massachusetts governors could be counted on less than the fingers of one hand?

Do we wonder why the legislature in New York meets for only a few weeks, goes about its business systematically, works closely with the governor, passes its bills and then goes home? New York has made its governorship fit for big men—indeed, fit for men who would become President. Only Coolidge has gone to the White House from the State House, and that was only by accident.

If Massachusetts could put its house in order, perhaps we could make our own state a proving ground and once again take the lead that our heritage and political talent make possible. For example:

We might work out a system for making and keeping congressional and legislative districts fair and square, with disinterested experts playing a central part.

Alaska and Hawaii have shifted the power of reapportionment from the legislature to the governor and courts; perhaps we could find a better way.

Massachusetts is guilty of having given the nation the "gerrymander" — perhaps we could square ourselves by giving it the "squaremender."

Another possibility for creative reform is the party convention. Some states have conventions that make binding nominations; others have conventions that are mere mock assemblies or cheering sections.

Our conventions are neither fish nor fowl; they bring politics to a boil every two years without really deciding anything. Perhaps we should try a binding convention—provided we had first made the whole party system in this state stronger, more open, more responsible.

Which party will seize the initiative in proposing bold plans and experiments? Where is the "Kennedy generation" in Massachusetts politics—the generation that is contributing so much to the nation today? What leader will arise—like La Follette in Wisconsin, Wil-

## SPORTSMEN'S CORNER

By Bill Chiba

The local anglers that go to Maine this time of year for the fabulous ice fishing that the state of Maine affords, should be up on the new regulations that have been adopted this year. One new law says that shacks or other temporary structures used for ice fishing must have the owner's name painted on the outside of the structure in two-inch letters.

Such structures must be removed from the ice within three days of the closing of the ice fishing season on the body of water in question. Another law which applies, but does not appear in the brief summary of regulation for ice fishing, is that it shall be lawful to angle or fish by use of the single-baited hook and line, artificial flies, artificial minnows, artificial insects, spoon hooks, and spinners. The second portion of the law concerns bait and specifies generally that it shall be unlawful to sell, use, or have in possession, either dead or alive, for use as fishing bait in Maine inland waters any pickerel, goldfish, yellow or white perch, bass, sunfish, crappie, hornpout, carp, or any spiny-finned fish.

The fisherman is reminded that leaving rubbish on the ice amounts to polluting the water. In the spring time, such debris will sink when the ice breaks up. Dumping such rubbish is also against the law, and

violators may be fined from \$25 to \$100 for each offense.

The Agawam Revolver Club has found out from a prospective new member survey that being open two nights a week has been detrimental to signing up new members. In light of this fact, the board of directors have had extra keys made so that members can use the facilities at their leisure. Naturally under such a system rules must be followed to insure that it will continue to work satisfactorily. 1—The key is not transferable. Guests must be with a club member. 2—Everyone must register his name, date and time entrance and exit. 3—The last member out is responsible for securing the range per instructions posted near the thermostat.

A partial roster has been established for the range officer committee: January 24, Puskey; 26, Tuttle; 31, Weber.

In February: Bellows, 7; White, 14; Bailey, 21; Puskey, 28; Mitchell, 2; Forni, 9; Fogg, 16, and Boyer, 23. Bob Weber, in addition to his regular range officer duties has volunteered to take over as range officer and governor on Sundays for the duration of the postal match season.

## Rejuvenated Roger Waite Making Big Difference In Brownie Hockey Team

### Young Goal Tender Has Turned In Two Straight Shutouts

By BUCKY O'BRIEN

"Give us a little ice time and we will be as good or better as anyone in the league." The author of this optimistic statement was Bob Anastas, the former AIC great, who is now in his second year as head coach of the local skaters.

Bob, through his own efforts, has made ice behind the school and the kids have really been producing ever since. Westfield and East Longmeadow got a jump on the

Brownies because of the skating facilities afforded them by their towns. Something has got to give here pretty soon or we will never catch them. In order to catch them we need a rink maintained by the town.

The local boys have really opened up on the opposition lately crushing Classical 6-0 and recently badgering Holyoke 10-0. In both games young Roger Waite was outstanding. Early in the year when Roger was not getting much ice time the pucks were slithering behind him and the boys in white were getting beaten. Bob went to work on his cage cop as soon as the ice had frozen and his record now speaks for itself. As Perry Mason says, "I rest my case."

A couple of virtual unknowns to the Wright Division, David Robinson and Billy Ferranti, were the big guns for the Brownies each bagging the "hat trick" with three

## MIDGET MERCHANTS BOWLING LEAGUE

The Midget Merchants League kicked off to a fine start. The league made up of ten teams under the handicap system rolls off every Saturday morning at 9:45 a.m. Each boy will have a bowling shirt with the sponsor's name imprinted on the back of the shirt.

With the kind and generous co-operation of the following merchants, and the management of the Agawam Bowl, this league was made possible: 1—Marceno's Barber Shop; 2—A. Spano's; 3—Ray's Grinders; 4—C & F Flying "A"; 5—Agawam Police; 6—Agawam Upholstering; 7—Richy's Paint; 8—DeMato's Construction; 9—Agawam Fire Dept.; 10—C. J. Sepanek Builder.

The team standings to date are even with Gary Mayo of the Agawam Upholstering a high single, 92, and a high two string total of 159.

goals apiece.

The back checking and forechecking by the boys is the primary reason for the recent surge. The reason for this sudden twist or course is the old adage "give us ice time and we will improve."

The two victories put the Brownies right back in contention but in order to get there they will have to do it all themselves. In other words they aren't going to back into the championship because nobody else can catch East Longmeadow or Westfield.

The crowds at the games are good but still leave a little to be desired. These kids are giving it all they've got, why not pick in and give them all we've got by supporting them in the stands.

## 'Y' Basketball Four Way Tie

Coaches, Captains and Outstanding Players for the different teams are: Providence: Coach, Wayne Morse, Captain, Sip Bucior, and Outstanding Player, John Connolly; Ohio State: Coach, Jack Ferioli, Captain, Walt Steinmetz, Outstanding Player, Ricky Morin; St. Bonaventure: Coach, Phil DeForge, Captain, Greg Hart, Outstanding Player, Bob Leger; Kansas State: Coach, John Michalak, Captain and Outstanding Player, Sam Provo; Holy Cross: Coach, James Fox, Captain, Billy Polopek, Outstanding Player, Wayne Kerez; Cincinnati: Coach, Mickey Connolly, Captain, Tony Grimaldi, Outstanding Player, Dennis Donovan.
